

# GOOGLE HOME

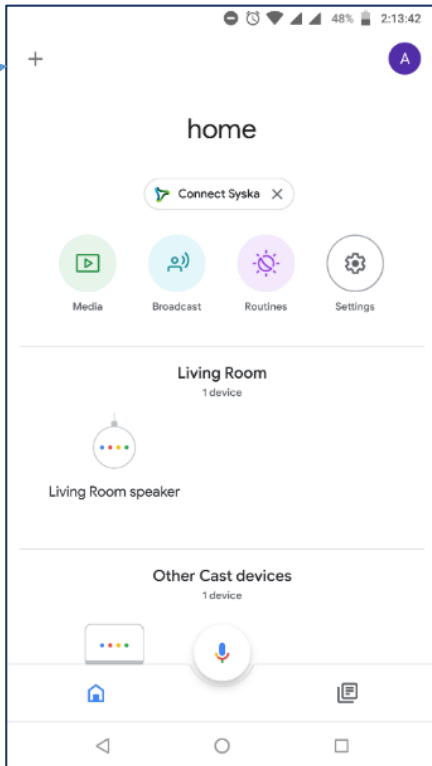

Download Google Home application from play store & App store.

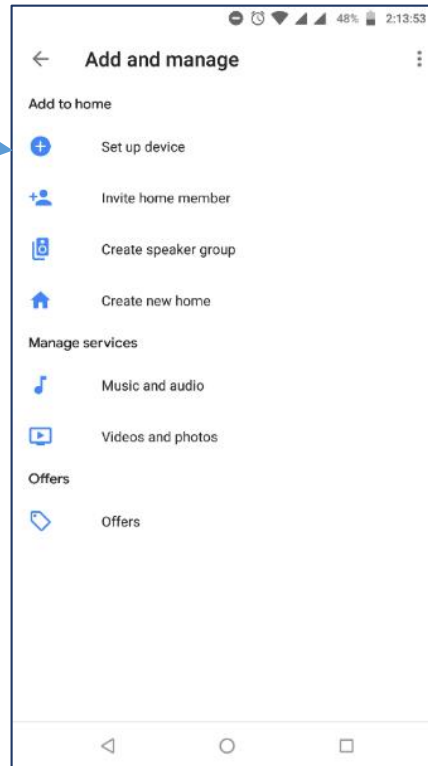

## 1. Google Home Setup

### Step-1

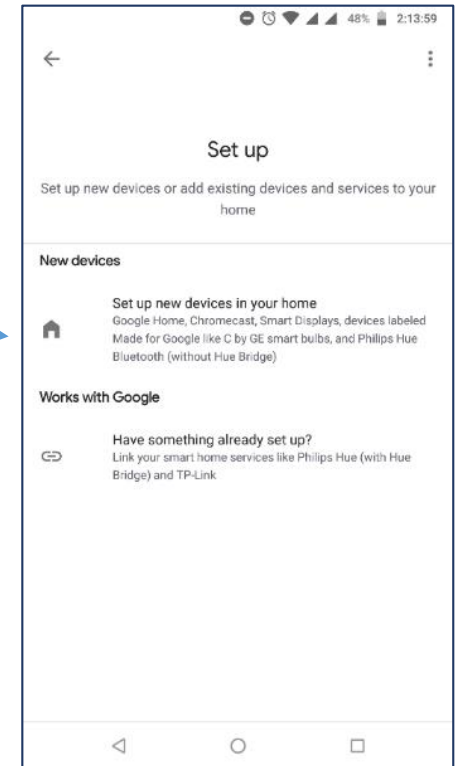

Click on + located at top left side.

### Step-2 Select "Set up device"

### Step-3 Choose "Set Up new Device in Your Home"

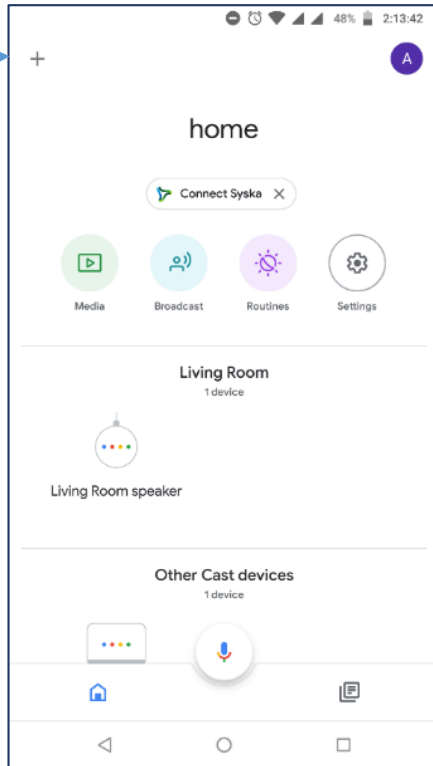

**Next Steps:-** Select "Yes", → Again Select "Yes", → Choose "Yes I'm in", → Pick your Wi-Fi network, enter details and go ahead

## 2. Initial Setup:

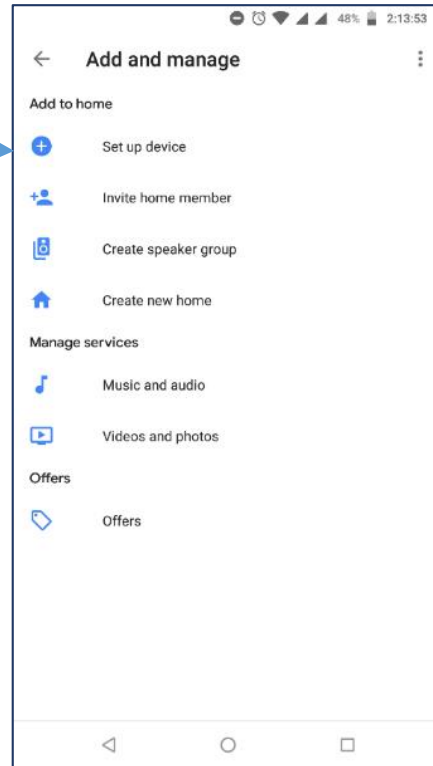

- Make sure your google home id & whitelion application id must be same.

### Step-1

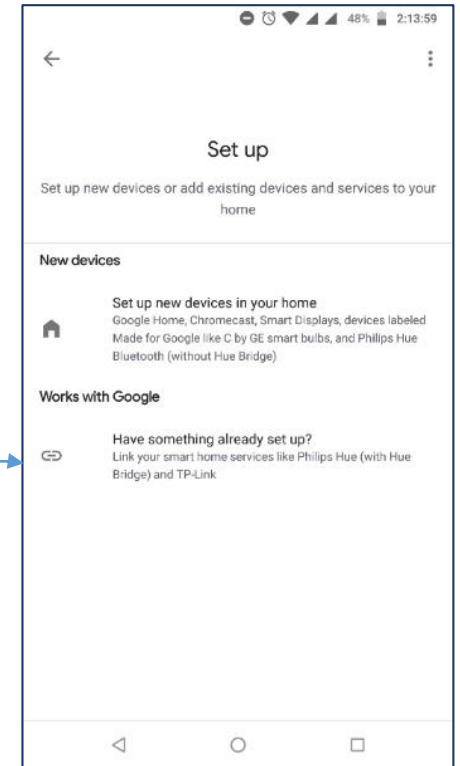

Click on + located at top left side.

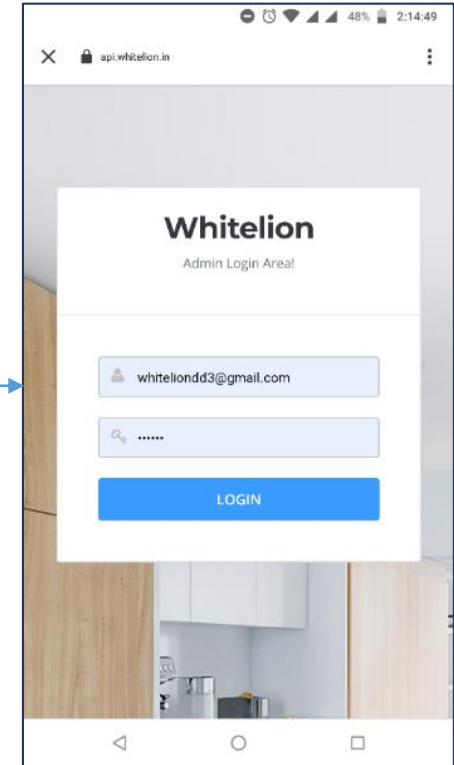

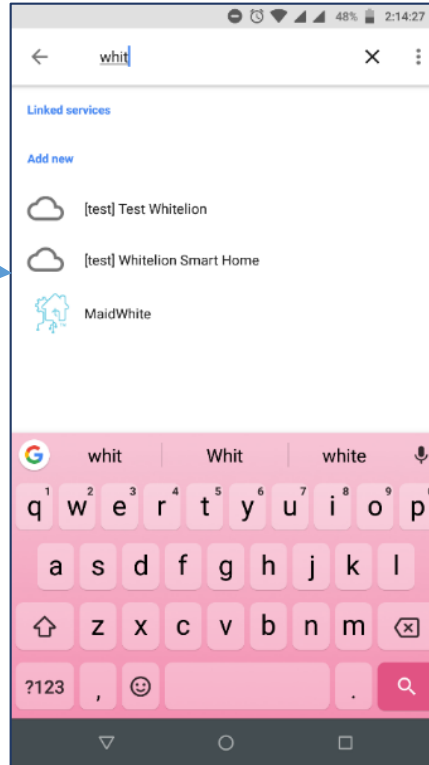

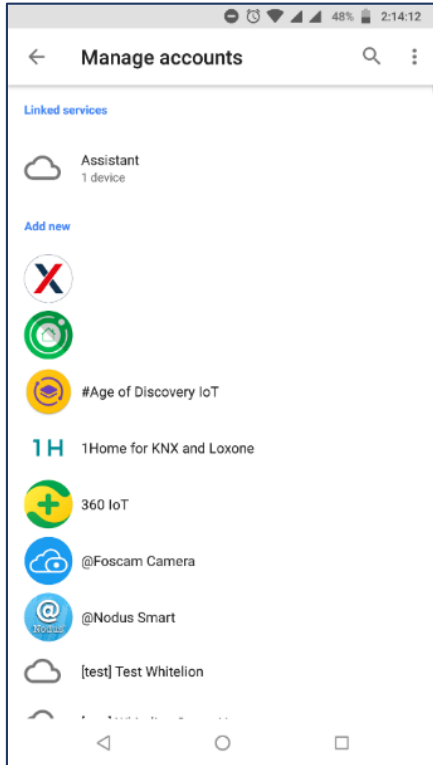

### Step-2 Select Set up device

### Step-3 Choose "Have something already set up?"

**Step-4** Select "WHITELION SMART HOME".

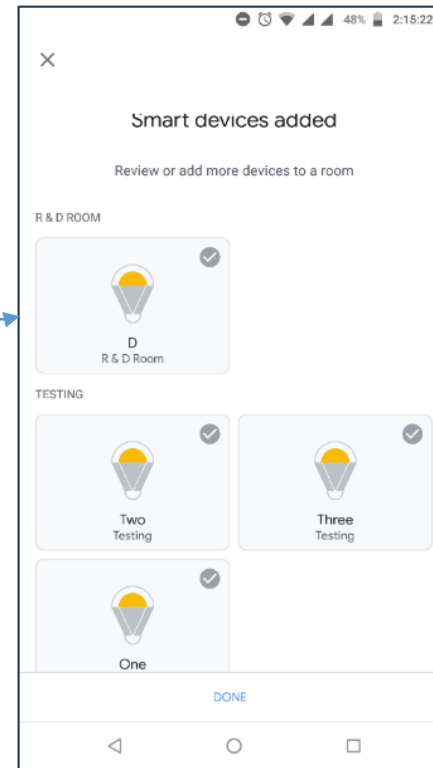

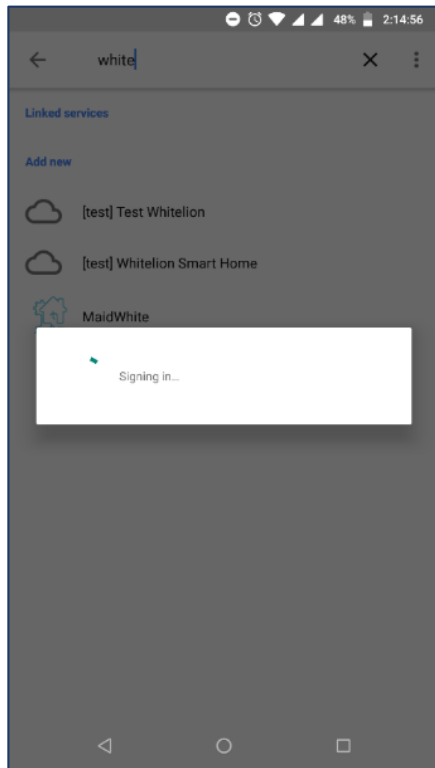

**Step-5** Enter your WHITELION application credentials.

### 3. Device Setup:

It will list all of your smart devices. Choose accordingly and add them into appropriate rooms.

Smart Device Added here

## 4. Commands:

Make sure each switch must have unique name.

### Light on/off:

**Hey Google, turn on “switch name”.**

For example, Hey Google, turn on “lamp”

Hey Google, turn off “centre light”

**Hey Google, turn on “Room name- lights”;** This will on/off all lights in that particular room.

For example, Hey Google, turn on “Bedroom lights”

Hey Google, turn off “Kitchen lights”

### Fan/Dimmer on/off:

**Hey Google, turn on “fan/dimmer name”**

For example, Hey Google, turn on “ceiling fan”

Hey Google, turn off “dimmer”

**Hey Google, set “fan name” to speed “1”;** speed vary from 1 to 4 for fan & 1 to 10 for dimmer

For example, Hey Google, set “ceiling fan” speed to “2”

Hey Google, set “dimmer” speed to “8”

### Scenes:

This include only whitelion applications scenes.

**Hey Google, start “scene name”**

For example, Hey Google, start “morning”

**Hey Google, start “scene name” in “room name”**

For example, Hey Google, start “morning” in “living room”

## **Sync Data:**

If any changes done in application of whitelion then update it on google home using this command.

**Hey Google, sync devices**

## **Routines:**

How to add routines?

Click on routines → manage routines → + add routine → add command as per your convenient → add action → browse popular action → select home control → choose accordingly → click on add at top right side.

**Hey Google, “routine name”**

For example, Hey Google, “I’m here”
